And what ever they worship or believe in that was as fare as some of the people here were concern it was their business, they would leave us alone and would be polite to us but after my family was killed when I was away, I found this out only when I return back home that they had been and brutally killed! When I learn this…

Ghoul

I immediately started going around asking question'' and time after time I ask anybody do anybody know anything about what happen to my family! Rather who killed them? Time after time were ever I would go asking this questions do they know about who killed my family? Everybody just clam up wouldn't say nothing anything at all. Later I found out why and it is because of those black burns! And the only reason that I learn that was because I ran across one of my friends so I said yow Timmy what's up why are you packing up your things are you moving? Yea we are moving and if I were you I would move to! Why what's going on what's wrong with everybody here? You people acts like you are afraid of something or somebody! Some generations later the story goes that the black burns now own the town of hillsbury and everybody they don't own is afraid of them.

Until a stranger came to town, no one never knew his real name everybody just call him Mich.…

Ghoul

That was the name he called himself by. As it goes this Mich. as he wanted to be called was a strange looking person but mind his own business. He was a undertaker by tread and he open up a feral home over cross the rail road tracks; no one knew what brought him here or back here, but the rumor is that years ago when he was away his family died mysteriously, when this happen at the time he never found out who had killed and then had them cremated. He has always been angry with the people here in this town fore there like of concern fore what happen to his family, even now years later they still are the same UN caring people they have always been but this time they are going to pay fore there like of concern and pay the ultimate price to and that is deaf, deaf to everyone that killed then, deaf to everyone that knew who did it an did nothing about it! Even now everybody acts like they were afraid to talk to me, everyone except fore this one little old lady! She wasn't afraid because she came up to me early one morning and said young man nobody else is afraid to talk to you weather they know anything or not about your family but not me I'm to old to be afraid and she said to Mich. it was them dam Black Burns they are the ones that did it killed your family!

Ghoul

You must be pretty old if you know all of this! Well young man I am and so are you! What did you mean by saying and so am I? Well young man when this happen I was 105 years then and you must have been bout 19 when you were attending that school to become an undertaker. If you were about 105 back then how old are you now? You don't really want to know do you? Yes I do! I'm now 2009 years old, hard to believe isn't it! Well its true, but you don't look that old well I am. When I started walking away she said don't forget the promise that you made when you were living here back then when you came home and found that every member of your family had been killed, you void to take revenge out on the one's that is responsible fore there delft's as well as the people in this town that was knowing who killed them stud by and did nothing about it! So Mich. Tell me something are you planing to use the powers that you have been gifted with on them the black burns? Yes I am I'm working on that'' but fore now I'm an undertaker and I'm purchasing that property over cross the tracks and my plans is to opening up a funeral home there.

Ghoul

Even dough I already know that hills bury already has a funeral home here, but Mich. What did you say or would say to anybody here that would bring up the subject up that fluky fore the black burns Drake has already have a funeral home here why would you want to open another one here in this small town? If somebody or somebody did bring that subject up I would say to them so what'' That doesn't mean anything to me! And he just continues bring and putting things in here, read looking things! That none of us even that Drake whom has had his funeral home here fore about as long as this town has been here!

Ghoul

Mr. drake the corona who had been here and was an acquaintance of the black burns didn't like Mich. He didn't like him at all, and he constantly let it be known also who called the shots here in hillsbury and that was the blackburns! Mich. would always say when Dr drake or anybody else would say that to him, his reply would be um is that right'' we will just have see about that won't we and walk away! It wasn't his walking away that bother people when somebody mention the blackburns and the control that they have over most of the people in this town that bothered the people here it was that arrogant intents deadly and killer look he would give anybody talk or even mention those blackburns or that ass kissing flunky Dr drake!

Ghoul

I’ve only had my business here fore about six months now and already people here look at me as dough I’m not here when we pass by each other, and that goes fore just about everybody here except from what pretty woman that I’ve seen here in hills bury, she is about the only one since I been here who always speaks to me and maybe a few other people but even they acts like they are afraid of something or somebody! Oh by the way I can count how many people that have pass away since I open up my funeral home here. Everybody when they have death in there family they go to that doctor Drake, but that’s alright I’m only here anyway until I find out who killed my family cremated them before I return back home from mortician school some years ago; until then its going to be business as usually.

Ghoul

This morning After I reach my office before I open my office door My night watchman intervene and said to me that there is someone waiting fore you inside mark'' who I Ask my night watchman who is it in side waiting to see me?

Paul said someone by the name of Alexis she said that you should know who she is! Before I go in side did she any thing else? Paul looked at me real hard before he said yea well she did back in the 16th hundreds many years ago right here in hillsbury she knew your family and you. Paul my night watchman seriously looked at me and said yo boss if that's the case do you know how old that would make you? I didn't say another word to Paul my night watchman I just smile and went on inside. First thing I seen was this woman that I believe is the prettiest woman in this town what is she doing here I was asking myself! Before I could say another word she said I know you! I know you from right here right here in this town many years ago you and your family'' Oh yea mark said looking bewildered at what she was saying! Then mark said if you know so much about me and my family why don't you start telling me some things about us that you say you know! Ok I will, mark you see Alexis went on to say that many years ago right here in Hills bury''

Ghoul

While you were away at school your family was brutally killed and had been cremated all done while you were away, how do you know this? You really don't remember me do you? No I don't mark replied with an attitude! No I don't'' you must be here spying on me like every other kiss ass flunky here fore those black burns? If so you can leave now before I say or do something to you that you are not going to like! Before I say anything else no I'm not here spying fore no black burns Alexis said, I'm only here trying to help you! Why Mich. asks? Because I'm the only one can or will! First of all help me with what? Second of all if what you are saying is true then that will you be'' that's right 2009 years old And that will make me be about 1002! Now do you get my drift Alexis said''

Yes! And I all so know why you are here'' and why is that? Looking fore the people responsible fore your family being killed'' well if you know that much do you know anything else? Yes again and I think its time that you should no it to'' it was the black burns they are the ones who killed your family!

Ghoul

He was shocked and had a look of disbelief at what I was had been telling him and said to me oh come on with that crap Alexis, do you really want me to believe that you really know this and that we both are as old as you say that we are and are!

Well Believe me or believe me not'' the thing is I have completed my mission and any second now I will start to disintegrate and shortly there after will be gone fore ever. So if I were you I would take what I've been telling you at face value and believe it to be the truth'' Then Alexis look at peace and started slowly fading away, but before she totally disintegrated she said such your mind go back in time when you were here many years ago and get the powers that you were gifted with back then'' that was it she was gone!

It didn't take long fore me to realize what''

Ghoul

Alexis was telling me was the truth because a short time later my place over cross the tracks one night burn down completely and Paul my night watchman with it! I believe that who ever did this through that I live here and was burning up alone with my place'' because I was standing right there in the crow with them and they couldn't see me'' I watch them laughing right alone with the black burns like they were at a party''

Ghoul

Right then I realized what Alexis had told me much be the truth and in order fore me to accomplice my mission I have to do what Alexis told me I had to do and that is go away fore a while gather the powers that I need and then come and finest them black burns off as well as everybody else that is a fluky fore them! A short time later the talk that me and Alexis had I left, it took me about 7 months to accomplish and complete my mission and now I'm back'' tonight I'm going out and test out my throe powers, powers that is of Satan! That night my plans was to grab one of those black burns instill some fear in him but something happen when I look in his eye's I seen my family and right then I felt deaf within me and I knew what I was going to kill him and I did'' it was my first killing! Ghost ship

Captain Shark ‘’

In 1789 was the skipper of the ship called Christopher Ann. The captain and his crew would ship goods from port but on this date in 1789 the captain made a crucial mistake because the skipper and his crew didn’t take his usually route on this date back in 1789 because he needed to save some time, so he figured if he take the route that carried him and his crew about nine miles south east of the Bermuda triangle that would save him the time that he needed, that was his first misstate’’ and the last mistake he made was when he was warned that this route that he was planing to take would take him and his crew to close to the Bermuda triangle but captain shark didn’t listen he continued on taking the route that would save him the time that he needed, and that was the last time captain shark or his crew was ever seen or heard from again. Fore so many years there have been so many people out searching fore them but nothing, it was like they just disappeared!

Ghost ship

This went on fore some years until people on these big ships started coming back from their trips saying that they've seen the Christopher Ann! After so many times after people come back from there trips saying that they seen it the Christopher Ann'' that sparked some treasure hunters curiosity so they to went out searching fore the Christopher Ann and never was heard from again''

Ghost Ship

So the Prominent Reverend kill-Patrick gathered a group of people from the ministry'' Pastor Bishop and about 10 decagons plus a 10 man crew left from right here in Hunters island want to himself explore the surroundings were all the ships fore years would leave port and never returned after they venture to close to the Bermuda triangle fore themselves. The reason why Reverend Kill-Patrick was to have ordain captain shark and he was to become a bishop to and what reverend kill-Patrick couldn't understand and that was why did this happen to such a Christian man like captain shark who tried not to do anything wrong'' so that's why I'm planning to gather nothing but who I fell is the holiest and the people he thought was closes to God like he was and on Sept / 21 / 19.04 they left about 4am in the early morning. Two months later only one of the 28 Christian people that left port here early that morning ever came back and he was hysterical when he was found out walking along the beach about 6.oclock early one morning by some people who was out jogging;

Ghost ship

Even doe these people that was out jogging that morning had been born here and knew almost everybody that lives here in this small town, but it was not until they bung Dr kill-Patrick back with them to town shave and clean him up did they know who they had found out there on the beach that morning, and when they realized who it was that they had found out there everybody was shocked that it was Dr kill-Patrick'' soon after they bung Dr kill-Patrick back but before he fail into a coma like state he woke up looked all around with this crazy look on his face like he seen a ghost and had been scared half to death by something!

He stayed that way fore about six weeks or so and suddenly one day he slowly started coming out of it, he would sit up and start looking all around mumbling something that at first we couldn't understand what it was that he was trying say, and then finally one day he started coming out of that coma like state but he didn't look right, because I've known Dr kill Patrick sense we were kids and at no time has he looked like this, lying here with those big huge eyes looking up at us with that look of fear on his face, saying don't go anywhere near the Bermuda triangle!''

Ghost ship

And then he slipped right back into that coma like state.
Beatrice looked totally trouble concern and upset at what she was seeing, like saying this can't be true what I'm seeing! She then walked away saying to herself no, no with total disbelief on her face and when she turned and looked around at Dr kill-Patrick he again had slip back into the coma like state that he has been ever since he was found on the beach that day.

Ghost ship

Then suddenly he rosed up again saying don't go anywhere near that place! Beatrice asks him why? He never answered her; then all of a sudden he started saying no no don't don't kill me Dr Shark don't!
He screamed up one last time and then said remember what I've been trying to tell you as he was slowly fading away don't go anywhere near that place'' that Bermuda triangle it's full of things that is unreal shocking and horrifying it's a place right out of hell!

Are You Ready To learn the powers of voodoo? Powers that You Can Do Something Good Or You Can Become A Bitch And Become A Devil A voodoo Bitch And Start Doing Evil Thing To People’’

All this an more you will read about In This Book:’’

Voodoo

I've never believed in voodoo witchcraft nor supernatural things but since I as a kid growing up after being picked on bullied called every name in the book and more'' I decided that enough was enough and I was going to do something about it. So I decided that it was time for me to do something about this shit! First thing that I did was started reading books on the subject of voodoo. I did this fore about six months. Then I told my family that I needed to get away fore a while, hell I knew they was going to reject the Ideal but hell I'm the one getting picked on not them! So one day I approached my mother because normally she usually understands me but not this time because she jumped back and ask me what did you say Tie?

That's when my father ask my mother what is it Reya? What in the hell is Tie planning to do stupid now? She said Rogg tie is talking about he needs to go away fore a while because he needs to learn about things and what he is looking fore he can't really learn it here'' He said tie you are only six teen you haven't even finest school yet! You are only in the 8th grade when you are suppose to be in the 11th; and you say you want to away so you can learn things that you can't learn here! Wait a minute tie what is it that you want to learn about that you can't really learn from here?

Voodoo

Well dad all I'm going to say is from the time I started school I've been picked on beat lunch money taken from me'' and each time that happen and I come home and tell you and pops about it all both of you would say is you've got to get used to them, they are only trying to check you out see what kind of person that you are! Mom that is the most stupidest crap I've ever heard!

Voodoo

Anyway weather you mom or you pops weather you say its ok or not and I have to slip away and go to Africa were my uncle Joseph lives and let him teach me what I want to learn, and that's with or without your consent I'm going! Dam you tie don't you know what that uncle of yours is? Yes I doe and that is why I'm going over there''

And you can't stop me'' and if you do try to I'll just run away! Rya what is happening with Tie! He has been acting funny lately! Rogg Hun I just don't know I've notice that to! And that talk about going over to Africa to learn about something that he can't really learn from over here'' now that really sounds crazy don't you think reya? Yes I do!

Voodoo

But at this point I don't know what to say to tie because he seems determine to go!'' I'll try talking to him again when I return back from this business trip that I've got to go on, I sure hope so rogg maybe he will listing to you when you talk to him this time. Rogg left early the next morning and so did tie soon after his father had left. Because after ties father left I went to ties room to tell him to get ready fore breakfast I knocked on his door called out to him tie wake up its time from breakfast! Nothing not a sound'' now I was getting a little bit worried so I knocked again but harder this time but still no answer, so I went to open the door as soon as I touched it the door came open by its self medially I said oh my god he is gone! My baby is gone! Tie has been gone now fore about two weeks now and nothing not a word! His father will be coming back home tomorrow what I'm I going to tell him? The next morning rogg came home and the first thing he ask me was were is tie?

Prince of Darkest

Castle Of Doom’’

In 1616

As a boy I’ve always been fascinated by things that was dead trying to see if I could bring them back alive’’ and that made people stay away from me. It wasn’t like that all the time dough because people use to say when I passe by look at him he’s going to grow up to t/o be a handsomest to be called the purist young man in this town Since all the adults acted like they were afraid of me so they keep their kids from playing with me. So that made me an out case a loner. So took long stroll’s by myself, sometimes I would so far back in the woods until the only things you could hear was the birds, as I grew I promise myself that I would get my revenge some day’’ one day as I was walking I decided that I wanted to go to that castle that everybody so much feared’’ saying that it looked like a place of death! So I figured that I would ask this group of people before I went up there was it any truths to what you people be saying about that castle up on that hill? Then I pointed to it’’ that’s when One old man out of the group looked up at me and me what is your name son?

Satan

I said Luke, Luke venison'' said young man there is a lot to be said about that place up there'' like what old man? Like that's the place of evil'' that's Satan place were he gives sanctuary to all evil being that comes there after there night of evilness '' just what kind of being as you call them? Beings like wear wolfs'' after there night of ripping people apart'' then comes all the other beings, there is so many creatures he said that he could can't count them all, but he said that he had heard many, many years ago that there is a casket up there and that some creature that was called Dracula slept in there doing the day time and that he would only venture out at night stalking his victims fore his meal of blood that was the only way he could stay alive''

Satan

Oh come on old man none of this shit is true and you know it! Well if you say so, but young man let me give you some advice'' stay away from that place up there because if you ever go inside you want come out, but maybe you will but you want be you anymore!''

Old man you are full of it'' you are just trying to scare me ant you! I heard some other old man say he's right he's right!

A lot of people who though like you went up there and was never seen again'' you know what I'm out of here I've heard enough of this bull shit''

As I was leaving right away I was just thinking and talking to myself saying that if I was to go in that castle alone everybody would fear, and I could scar them in to giving me anything that I wanted''

That's it I'm going up there the first thing in the morning, no I better wait until at lease 10: o'clock before I goes up there just in case them old fools is right''

Satan

So the only Thing I carried with me was myself I what's the point I don't think them old fools know what they are talking about anyway. So I continued walking.

After I got about 2/3 of the way through it that is when I realized that This place is

More dark dense foggy creepy and longer that I Through it was!

But I said to myself that I can't let that stop me now I'm to close to that castle now'' about fifteen minute later after I was wondering how much farther I had to go before I reached that place besides it was getting dark. Hell it doesn't matter I'm not fared because I fear nothing!

When I reach that fucking door that was the first time in my life that I was shaky to inter a creepy place knew from the beginning that this place was going to be difference from all the other creepy places that I've entered'' I reached fore the door and at that very minute the door opened by it self! That should have warned me not to enter this old castle'' but I couldn't help myself had to go in I haven't came this fare to stop now. The opened all the way like I was envited in'' as soon as I stepped inside the door slammed shut behind me! I tried to open it but I couldn't It was shut tight'' so I started looking around at this dense looking place dam I said out loud'' this place is freaky looking and scary! But me man I fear nothing'' but soon as I entered the last room right away I seen it

Satan

A casket and old creepy looking casket with shiny brass handles on it'' so right away I ask myself what do I do now? Should I go over and open it up? Man but you know! One mind said to me what if I was to go over an open it up and find nothing'' then another mind said to me that no matter what I fine even if nothing! Just telling everybody the story of what happen and what I seen up there in that scary place in that basement opening up that casket alone will show people how brave I was, and that alone will make me the man when I get back home''

So I went over grab the shiny brass handle that was on the casket eased the casket open looked inside and what did I do that Fore! A being like creature with long fangs sticking out of its mouth''

Satan

It Flue up making some kind of reared noses and sounds bit on my neck'' and when it bit me I screamed you mother fucker! I'm going to kill your fucking ass!

Then I went after what ever it was that bit me but I didn't have to go to far to catch up with what to me like a bat because right at that moment I heard another loud scream'' this time dough it sounded like a death scream and when it fell it didn't sound like it was a bird or a bat'' it sounded more like a person had fell'' by now I'm so freaky mad about it biting me that nothing else mattered I want to kill what ever it was that bit me'' when I reached the other room I looked in and there was the ugliest creature that I've ever seen first it was flying around and then it fell'' I started to run but then this thing started saying you have been chosen! You will now take my place you are now the chosen one you will carry on my legacy! Whatever it was it reached out and handed me a Madeline''

Satan

And then it just turn to dust'' from the time I went into that room I never felt like I was myself'' this thing had me under its control, it was like a night mare something out of a dark dream but only this was real!'' and only when that thing turn to dust and disappeared only then felt release'' then I started running I had so much to tell I was saying and when I finest telling everybody what I've experienced nobody will never mass with me again I'm sure of that because they are going to be to

Fucking scarred of me!
